The PU sealant is customized and made according to the measurements we received from you

Your parcel delivery from SIMA!

Apply...

...and done!

SIMA DO-IT-YOURSELF-SYSTEM

**Now available, your customized PU sealant
in bulk and with adhesive!**

Apply the adhesive
with the roller...

...or with our new version
simply take off the protective
film...

...to thereafter apply
the seal in the requested
area...

SIMA DO-IT-YOURSELF-SYSTEM

Cost savings in logistics

Application examples: PU and PVC foam seals applied by the customer and here is the how-to:

Prime the surface with our recommended adhesive cleaner

apply the transfer film

or with the new version simply peel off the protective film.

Apply your custom-made PU foam seal

Attention! Do not bull but apply the seal loosely.

Press firmly on PU foam seal by using a roller

SIMA DICHTUNGSTECHNIK

To simplify things and if requested we can apply the PU foam directly on your components as well
